Linwood Dotterer**

ACKNOWLEDGEMENTS

This document was largely financed by Berks County's Federal Community Development Block Grant Program. Berks County has established a policy for funding local planning with CDBG funds that implements the principles defined in the Berks County Comprehensive Plan Revision. A major objective is to promote joint municipal planning, intergovernmental and regional cooperation. As a result, the County initiated a Local Planning Partnership Fund, to fund the preparation of local comprehensive plans for municipalities that engage in joint planning efforts. The Bally/Bechtelsville Plan is one of the first projects to be funded under this policy. The County commends municipal officials of both Bally Borough and Bechtelsville Borough, as well as the joint comprehensive planning committee members, for their participation in this program.
